## TERMS

I know that my parents have asked Amy Bender Webb from Real Estate III to help us sell our house.

I know that she is going to work hard to find a family to buy our house; a family that will love our house as much as we do.

I will help Amy by doing the following things:

Making my bed

Picking up my toys

Helping keep our house tidy

When we need to leave the house so that another family can come look at it, I will listen to my parents and be ready to go!!

Other:

My signature: \_\_\_\_\_

Amy's signature: \_\_\_\_\_

## What Happens When We Try to Sell Your House??

Your parents and I sign lots of papers, agreeing to work hard together to sell your house!

I take pictures of your house so people can see what it looks like!

I make a book to put in the house to show people the pictures and give people information about the home!

I put a sign in your front yard.

I create advertisements so that everyone knows your house is for sale! You may even see a picture of your house in the newspaper!

I put information about your house in my computer system so that people all over the area and all over the Country can see your home on their computers!

People who like your house will call your parents and ask to come see it with their Realtor! Usually, you and your family try to not be home when this happens!

When someone wants to buy your house, Mommy and Daddy will have a lot more papers to signs. If you get to come along to a meeting at my office, I will have toys and books there for you to play with!!

After we find a buyer for your house, Mom and Dad will start helping you prepare to pack and move!
